WELCOME TO CARE HOMECARE

A HOUSE A HOME

My name is Moti Gamburd, CEO of CARE Home Care. Many older adults choose to move into some form of senior housing; but each year, more and more choose to stay in their homes. There are many reasons to choose CARE Home Care as your in-home care provider. The primary reason? Our people.

People are what make a house a home. We believe that the best work happens when you know that it is not just work, but something that will improve the lives of others. This opportunity drives each of us at CARE Home Care.

As you take the time to familiarize yourself with our values, commitments and offerings, I hope our cause will resonate with you.

Sincerely,

Moti Gamburd

OUR MISSION & CORE VALUES

RETHINKING THE CAREGIVER EXPERIENCE

OUR GUIDING PRINCIPLES

EXCELLENCE IN CARE

Our clients know excellent care when they experience it. A caregiver's response time, bedside manner, and engagement—all of these things affect how people feel about the quality of their care. At CARE Home Care, excellence means providing the care the client needs when they need it, in a safe and effective approach. To meet our standards, our caregivers engage and involve their clients, strengthen person and family engagement as partners in their care, and promote effective communication and coordination.

HIRE FOR HEART

"Treat your clients as if they were a family member." This is the statement that each and every caregiver is hired to embody prior to working with their clients. We understand that health is not just a state free of medical conditions, but having a sense of well-being in mind and body. It's why we hire for heart. Our primary role is rarely to save a life or sustain it; we train to understand life's uncertainty and attend to it with open arms and an open heart.

UNCOMPROMISED DIGNITY

Everything our caregivers do with and to our clients has the power either to strengthen and restore that sense of dignity. At CARE Home Care, dignity is essential to the human spirit. It means being valued and respected for what you are, what you believe in, and how you live your life. Our biggest resource? Our team. Their attitude, their manner and their enthusiasm are the three 'tools' we use to maintain and restore a sense of dignity.
